

Grade 9 Lab Notebook
Science in Action 9
 Index of Investigations, Challenges and Activities

Environmental Chemistry

Investigations	Activity	Title	Page Ref.
QuickLAB		Testing Health Products	181
1.0 The environment is made up of chemicals that can support or harm living things.			
Give It A Try		Chemicals in the Environment	183
Decision Making	C-1	Viewpoints on Electric Power	189
Inquiry	C-2	Measuring Acids and Bases	192
Inquiry	C-3	Neutralizing Acid	194
Give It A Try		Organic or Inorganic?	196
Inquiry	C-4	Testing for Organic Molecules	200-201
Inquiry	C-5	Breakdown of Starch by Hydrolysis	207
2.0 The quantity of chemicals in the environment can be monitored.			
QuickLAB		Identifying Aquatic Invertebrates	215
Skill Practice		Parts per Million	217
Inquiry	C-6	How Does Oxygen Get Into The Water?	218
QuickLAB		Phosphorus and "Foggy" Water	220
Experiment on your Own	C-7	What Killed The Fish?	223
Skill Practice		Measuring Nitrogen Oxides	226
Inquiry	C-8	Analyzing Carbon Dioxide Measurements	231
3.0 Potentially harmful substances are spread and concentrated in the environment in various ways			
QuickLAB		Environmental Transport	238
Inquiry	C-9	Acid Rain and Soil	240
Inquiry	C-10	Bury Your Garbage	245
Decision Making	C-11	Mosquito Control	249
Give It A Try		Using A Hazardous Product	254
Inquiry	C-12	Household Chemicals and the Environment	256
SCIENCE WORLD			
Case Study Issue		Fuel Combustion in Electrical Power Plants	263
Project			
End of Unit Project		A Refinery Mega-Project ... Considering The Options	264-265
